BOR met in October on the 16th at Maui College. Here are a few of the highlights:

- UH system placed 80th among scientific standards for academic papers published nation wide
- Prestigious grants received are 50-plus million dollars worth aimed at bringing students into STEM
- Student aid not adequate to meet costs of education so looking at how to relocate tuition spending
- Possible to divest in fossil fuel investments
- Maui turning old dorms into "resort / hotel simulation" for their tourism / hotel management program
- UH Foundation received largest donation amounts ever in history, $98.6 million

Also the BOR welcomed the new members, yet to be approved by the legislature.

Also important to note the protesters at the BOR, there in response to Chancellor Apple being fired and also the six-figure pay-out to the UH coach that was let go.
