First pharmacy class set to graduate

by Ken Hupp

UH Hilo marks a historical milestone when the College of Pharmacy awards its first Doctor of Pharmacy (Pharm.D.) degrees at spring commencement on Saturday, May 14 beginning at 9 a.m. at the Edith Kanaka’ole Stadium.

Dean John Pezzuto, who has spent 30 years in academic pharmacy, described the class of 2011 as “dynamic and self-driven pioneers.” He said their graduation will clearly be marked as one of the most joyous days in the institution’s history.

“Every student pharmacist in our College is extraordinary; otherwise they would not be members of our program. And this first graduating class has set the bar amazingly high for future classes to match their scholarship, leadership and citizenship,” Pezzuto said. “They embraced their role as eldest among our student ‘ohana with zeal and passion. As their dean I am proud and humbled.”

The 84 pharmacy students are among 607 candidates for various degrees and/or certificates, which also includes the Colleges of Arts and Sciences (402), Agriculture, Forestry and Natural Resource Management (27), Business and Economics (47), and Ka Haka ‘Ula O Ke‘elikōlani College of Hawaiian Language (23). Twenty-four others are candidates for various post-graduate honors.

Dr. Hank C.K. Wuh, a Honolulu entrepreneur and leader in Hawai‘i’s biotechnology field, delivers the keynote address. Wuh, an orthopedic surgeon, inventor, and entrepreneur, has led the development of over 20 biomedical and consumer healthcare products from concept to global commercialization.

Wuh grew up in Honolulu and graduated

UH Hilo: A campus on the move

by Chancellor Donald Straney

It has been almost a year since I first arrived at UH Hilo. Since then, I’ve been engaged in numerous meetings with academic departments and other campus units, legislators, officials, and business people. I’ve also received input from campus workshops, strategic planning consultations, and the recent faculty retreat. I’d like to share with you some of what I’ve heard.

A number of important issues were raised in the recent faculty and staff workshops on improving the UH Hilo work experience. The faculty are telling me they need reduced bureaucracy, improved decision making, increased support, and a campus culture of respect, merit and appreciation. Staff is saying they need streamlined bureaucratic procedures, training opportunities, equity, efficient use of resources, and reduced micromanagement.

Many of the same concerns were raised in the strategic planning consultation sessions where issues clustered around three major themes: academic standards and direction; internal functioning and operation; and external engagement and influences.

From the community, I’ve been hearing of the pressing need to continue to help the economy grow and diversify, support job development, and serve the educational needs of the entire island of Hawai‘i.

These are all issues the campus needs to address. I have faith in UH Hilo as an organization, because UH Hilo has an impressive track record of institutional
from Iolani School in 1977. He earned his B.A. in human biology from the Johns Hopkins University, masters in public health from Harvard University, and medical doctorate from the Johns Hopkins University School of Medicine. Wuh was Resident and Chief Resident in Orthopedic Surgery at the Stanford University Medical Center, elected Class Marshal at Harvard, and was a two-time winner of the Vernon P. Thompson Prize for outstanding research in orthopedic surgery at Stanford.

He is founder and CEO of Skai Ventures, a hybrid of venture capital and technology accelerator focused on creating, growing, and investing in successful companies by transforming novel, ingenious ideas from scientists at leading universities into disruptive innovations. He is also founder and CEO of Cellular Bioengineering, Inc., developing the world’s most advanced, bioengineered cornea for transplantation to restore vision for the 10 million people around the world with corneal blindness. He recently founded World Children’s Vision, a charity with a mission to bring blind children from around the world to Hawai’i for the gift of sight.

He was named Invention Entrepreneur of the Year in 2008 by the Hawai‘i Venture Capital Association and was nominated in 2010 for the National Medal of Technology and Innovation.

Valerie Dionne serves as student speaker. A native of Arkansas, Dionne is a political science and administration of justice major who has maintained a 3.91 GPA since leaving her job at the Hawai‘i Government Employees Association to enroll at UH Hilo in 2008.

A member of the National Political Science Honor Society Pi Sigma Alpha, Dionne was named the UH Hilo Chapter’s Most Outstanding Student for the 2010-2011 school year. She has made the College of Arts and Sciences Dean’s List each semester and was awarded the Dean’s Scholarship for 2010-2011. Dionne is also a three-time recipient of the Willard D. Keim Memorial Scholarship, twice received the HGEA Charles R. Kendall Scholarship and most recently earned the Big Island Federal Credit Union Scholarship. She is also active in campus and community affairs.

After receiving several graduate/law school offers, Dionne chose to remain in Hawai‘i and will attend the William S. Richardson School of Law in Fall 2011.

For more information on Commencement, contact Judith Fox-Goldstein at x47555 or email commence@hawaii.edu. For special accommodations, contact Susan Shirachi at x30816 (V) or x33334 (TTY). Requests should be made at least 10 business days prior to the event. ☑

(Editor’s note: Ken Hupp is a public information officer.)

**UH Hilo**

**Continued from page 1**

effectiveness, and I have personally seen this University achieve substantial progress on a number of fronts despite an ongoing budget crisis.

Strategic Plan. The strategic planning process is drawing to a close, and we currently have a draft plan that is widely supported on campus. By the end of spring semester we should be distributing the working draft. Next year, we’ll be using it to adjust the course of our University through detailed planning and implementation.

Facilities. A lot of work is taking place to bring our physical facilities into line with the excellence of our programs. Our new Science and Technology Building is complete. Construction of the new Student Services Building is underway, and we broke ground on the College of Hawaiian Language building this year. UH Hilo College Campus Store is in the works, and new facilities for the College of Pharmacy are in the planning phase. Repair and renovation projects are also underway.

Academic Affairs. New programs have been approved by the Board of Regents: BA in Pharmacy Studies, PhD in Pharmaceutical Sciences, and the Doctor of Nursing Practice.

Grants and Research. I’m extremely pleased to see how hard our faculty and staff work to pursue and implement extramural grants. UH Hilo reached an all-time high of $33.6 million in grant activity in 2009-2010. Here are just some of the notable grants UH Hilo has recently been awarded:

$3.6 million from the US Department of Education to UH Hilo and Hawai‘i Community College to promote the transfer of Native Hawaiian students between the two institutions.

$500,000 from the National Science Foundation to enrich students’ research experiences in tropical conservation science.

$1.1 million from the US Department of Health and Human Services Administration for Native Americans awarded to our Hale Kuamo‘o Hawaiian Language Center for oral language development.
$770,000 from the National Science Foundation for development of secondary math teachers.

$398,000 from NSF to increase the number of native Pacific islanders earning degrees and pursuing careers in math.

$1.9 million from US Department of Education to renovate a dormitory into a modern living-learning environment.

Student Achievement. Our students are also receiving great recognition for their work:

Students from our College of Agriculture, Forestry and Natural Resource Management won first place for the Most Innovative Market Idea category in the 2011 Western Collegiate Food Marketing Competition held in Fresno, California.

Student Kealohanuipuna Kinney was awarded Best Speed Talk in the Student Conference on Conservation Science in New York for his presentation on “Remote Sensing Restoration Potential in a Hawaiian Sub Alpine Dry Forest.”

Students in our Marine Option Program consistently shine at the statewide Marine Option Program symposium. This year, Sebastian Baca garnered both the Award for Best Overall Research Paper and the PACON Award - awarded to the best paper integrating marine science and technology with a Pacific focus. This represents the 18th time a UH Hilo student has won the Best Overall Research Paper award in past 23 years.

Graduation Initiative. We’re confident that UH Hilo will exceed this year’s graduation targets set for us by the UH System.

And the list goes on.

As you know, the current fiscal situation in the state presents a challenge to implementing the changes the campus would like to see. The budget challenge is statewide: state government needs to make up a $1.3 billion shortfall in the next biennium. UH Hilo has already taken a 24.5% reduction in general funds over the last three years.

Nevertheless, UH Hilo really is a campus on the move. What I want everyone to know is how proud I am of the work faculty and staff do and the success our students have. We face serious budget constraints next year, but, in the words of a participant in the faculty retreat last January still hold true: “The most exciting possibility is the opportunity to offer a high quality university education infused with the cultural and environmental uniqueness of the Big Island of Hawai‘i.”

Ka Lono Hanakahi is published by the Office of University Relations during the academic year for faculty and staff of the University of Hawai‘i at Hilo. News and submissions are welcome with priority given to current faculty and staff members. Deadlines are on the fifteenth of each month for the following first of the month publication. Contact Alyson Kakugawa-Leong, Director Media Relations, (808) 974-7642 or alyson@hawaii.edu.

UH Hilo Nursing sponsors 6th annual healthcare conference

The UH Hilo School of Nursing hosts the 2011 Pulama I Ke Ole Healthcare Conference May 17 and 20 on campus. “eHealth—Increasing Access, Improving Health” focuses on the advantages as well as the challenges of technology in healthcare. Conference fee is $75.

The conference is divided into two distinct days of presentations with May 17 dedicated to high school youths considering a career in the healthcare industry and May 20 for healthcare professionals.

“High schoolers gain experience by exposure to current healthcare issues and opportunities to interact with healthcare professionals,” said Dr. Cecilia Mukai, professor of nursing and conference chair. “Judge Edward Kubo will be talking on Drug Prevention, the Hawai‘i County Police will speak on Internet Safety and Cyber-bullying, and Cindy Adams returns for an intriguing talk on the Meth Project.

“For the Professionals program, informational talks will bring clinicians up-to-date on e-Health."

The keynote speaker is Dr. Joseph Kvedar, director of the Center for Connected Health, Partners HealthCare in Boston. He will join the conference via a pre-recorded telecast followed by live commentary by Kepano Kekuewa, an account executive with Apple, Inc. Kvedar will address “Connected Health: Tools to Promote Healthcare Access, Quality & Efficiency.”

Additional speakers will present on Technologies for Voice and Inclusion, Teleradiology Advances, Online Liability Risks, and Connected Health for Hawai‘i Island.

For more information or to register for the conference, call Mukai at 756-1102 or visit www.uhn.hawaii.edu/depts/nursing/pulama.
Hats off to...

Brian Perry, Assistant Professor, Biology, presented his research on “Fungal endophytic community structure in leaves of Metrosideros polymorpha: host selection and conservation implications” at the USDA Forest Service, Pacific Southwest Research Station in March, and “Mushrooms and other Fungi of the Hawaiian Islands” at the UH Hilo North Hawai‘i Education and Research Center in Honoka’a last month.

Chris Frueh, Professor, Psychology, was senior author on the following papers: “Comparing posttraumatic stress disorder’s symptom structure between deployed and non-deployed veterans.” Psychological Assessment 2011; 23:1-6, and “Testing whether posttraumatic stress disorder and major depressive disorder are similar or unique constructs.” Journal of Anxiety Disorders 2011; 25:404-410.

Kelly Burke, Professor, Information Systems, wrote “ICTs in the Microenterprise: An Examination of Usage, Benefits and Firm Growth in Hawai‘i’s Agricultural Sector,” which is forthcoming in the International Journal of E-Entrepreneurship and Innovation. The paper details the results of a study of information technology and website use among Hawai‘i Island diversified agricultural micro-firms (10 or fewer employees).

Cheryl Ramos, Associate Professor, Psychology, will lead a symposium on “Community Psychology & Health Care: Implications for Training, Research, and Practice” at the 13th Biennial Conference of the Society for Community Research and Action, to be held in Chicago, IL in June. She will also present a poster, “Prevention Across the Cancer Control Continuum: The Community Psychology Connection.”

Bruce Mathews, Professor, Soil Science, co-wrote “Macronutrients in Hawai‘i’s coastal wetland pastures and potential phosphorous release to water,” Agronomy Journal 103:830-843. He also received a Certificate of Appreciation from the Crop Science Society of America and the American Society of Agronomy for five years of service as an Associate Editor of Forage & Grazinglands.

Susan Jarvi, Associate Professor, Pharmaceutical Sciences, presented and participated in the New Mexico Biominformatics and Science Symposium on Population-Level Genetic Diversity, held in Santa Fe, NM in March. She is collaborating with the National Center for Genome Resources scientists on genome sequencing projects and presented the poster, “Sequencing the genomes of two biologically distinct variants of Avipoxvirus.” Jarvi is also co-author on the study, “Efficacy of a commercial canarypox vaccine for protecting Hawai‘i ‘Amakihi from field isolates of Avipoxvirus,” which is a recently released Hawai‘i Cooperative Studies Unit Technical Report HCSU-019 funded by the U.S. Fish & Wildlife Service.

Bryan Kim, Professor, Psychology, co-authored “Advisor-advisee Relationships in Graduate Training Programs,” which was published in the Journal of Career Development.

Faith Mishina, Assistant Professor, Spanish, presents this month her research on “The Labyrinthine Aesthetics of Gabriel Garcia Marquez in Autumn of the Patriarch: The Forging of the Postcolonial Reader,” at Harvard University. She will also present a paper on “A Framework for Expansion: Gabriel Marquez’s Strategic Postcolonial Path through Four Novels” to the Ninth International Conference on the New Directions of the Humanities at the University of Granada, Spain, in June.
Strategic planning – transitioning from plan to implementation

by Siân Millard on behalf of the UH Hilo Strategic Planning Committee

In a recent consultation on the draft UH Hilo strategic plan, 80% of those who took the survey either strongly agreed or agreed that the draft plan is appropriate for UH Hilo. 192 people participated in the consultation on the draft, which presented revised mission and vision statements, new ‘who we are’ and ‘what we stand for’ sections, as well as six draft goals and their supporting actions. Please see www.hilo.hawaii.edu/strategicplan/consultations for a copy of the draft plan.

We received excellent suggestions to improve and clarify the draft plan, which are under current consideration. One issue raised in feedback was that while all the proposed actions are considered to be important, our budget-constrained environment may not allow all of them to be undertaken. As a result of consultation with the Chancellor, we will be highlighting from within each goal 2-3 cross-cutting, campus-wide actions as core priorities, with those remaining identified as supporting actions.

Key performance indicators (KPIs) will monitor progress on the strategic plan, answering the question, ‘Are we making progress on our goals?’ The KPIs for UH Hilo will be developed in a separate, but linked, document dedicated to helping monitor and review the plan. As a starting point, the committee will identify several high-level KPIs for the strategic plan and over time more KPIs will be developed.

The committee will seek endorsement of the strategic plan from key governance groups, reflecting those groups’ support of the plan and its implementation, before recommending a final version to the Chancellor. Endorsement is currently contemplated for the three governance bodies represented on the committee – Faculty Congress, Hanakahi Council and UH Hilo’s Student Association.

Upon endorsement, we will recommend UH Hilo’s Strategic Plan for 2011-2015 to Chancellor Straney. This recommendation will be made by the deadline of May 31, 2011 and will be accompanied by our recommendations for implementation. At that point, the strategic planning committee will have completed its charge.

Completion of the strategic plan document marks the beginning of the implementation phase, in which we put into practice that which we, as a university community, have identified as the most important things to do to achieve an even better living, working and studying experience for our students, faculty, staff and community. This will be an important and exciting time when our entire University ‘ohana will be engaged to make change happen. Further details about the process to support implementation will follow.

The strategic planning committee would like to thank the entire University ‘ohana for supporting us in this planning process, and helping us to develop this strategic plan by taking part in our consultations and giving us feedback in other ways. It has been our honor to serve you and the entire University. Mahalo!

Focus on UH Hilo concludes with legislative wrap-up

Focus on UH Hilo wraps up its Spring 2011 series of telecasts with a discussion of legislative initiatives and capital improvements. The show airs on Friday evening from 8:00 – 8:30 p.m. on Channel 55.

The guest lineup for the May 6th program features Gerald De Mello, director of university relations in government and community affairs, who will discuss how various UH Hilo initiatives fared at the legislature, and update key capital improvement projects.

Focus on UH Hilo highlights UH Hilo programs, up and coming developments and the University’s partnerships with various community organizations. Anyone interested in participating in the program should contact UH Hilo’s Marketing and Alumni Office at x47501 or x47643.

Chef Alan Wong demonstrates extracting honey at the CAFNRM Fair held on April 23 with beekeeping student Cal Westergard looking on. Chef Wong was promoting honey bee awareness and flew in from Honolulu for the day to support the UH Hilo beekeeping program. In addition, the fair showcased exhibits on aquaculture, animal wellness, biofuel and composting.
First Walgreens on Big Island helps support College of Pharmacy

The UH Hilo College of Pharmacy received a $10,000 gift at the grand opening and blessing ceremony for the first Walgreens on the Big Island April 17. Second- and third-year students also participated in the event by offering free blood pressure checks to all participants.

“Walgreens has been an avid supporter of our College, both in working with students in stores in other locations and by helping with various funding, including a $50,000 pledge to help us with our new building,” said Dean John M. Pezzuto as he accepted the check. “We’re happy to welcome them to the island.”

Several dignitaries from Walgreens attended the ceremony, which also included a traditional Hawaiian blessing. Walgreens personnel included William Hose, market vice president of operations and Nancy Huang, Hawai‘i district pharmacy supervisor from Honolulu. Kermit Crawford, president of Walgreens pharmacy, health and wellness division based in Deerfield, IL, remarked about the need for pharmacy services to residents of the Big Island.

“Pharmacists are the most accessible health care professionals,” he said. “We want to make sure they continue to have opportunities to learn. I want to thank Dean John Pezzuto for fostering the school here.”

Liz Heffernan, director of student services for the College of Pharmacy, was on hand to thank Walgreens for an earlier gift of $10,000 that was given to the College to help fund a diversity initiative. The gift was used to help support a trip to Moloka‘i for 18 students along with two staff so the students could experience the cultural implications of Hansen’s disease in Hawai‘i.

“Our students were able to see how a culture has handled a health care issue in a way that no other pharmacy students on the mainland have, and we’re grateful to Walgreens for giving us the chance to offer this amazing learning experience,” said Heffernan.

This is the third year Walgreens has chosen to include the College of Pharmacy as part of its national commitment to donate $1 million annually toward diversity initiatives at all of the more than 100 pharmacy schools nationwide.

From left, Walgreens president of pharmacy services Kermit Crawford, District Manager Scott Sutton, College of Pharmacy Dean John Pezzuto, and Walgreens Vice President for Operations William Hose attended the grand opening for the first Walgreens on the Big Island.

College of Pharmacy establishes alumni group

Students who are graduating this month from the College of Pharmacy’s inaugural class will also be the inaugural members of an alumni chapter with the UH Alumni Association.

The UH Alumni Association approved on March 30 a request to officially recognize the new chapter for the College of Pharmacy (CoP) Alumni Association. The request included confirmation of officers-elect, names of 15 volunteers to serve on the board of directors, the promise of membership by 46 individuals, and approval of the Chapter Bylaws.

Dean John Pezzuto said an alumni chapter seemed like a natural bridge for this class.

“For a group that has been so open to new ideas, so enthusiastic about the pharmacy program both in and out of the classroom, an alumni chapter is a logical next step,” he said.

Elwin Goo, former chief of pharmacy service at U.S. Army Health Clinic for Schofield Barracks and chief of inpatient pharmacy for Tripler Army Medical Center, will serve as founding president of the new chapter.

“Alumni are carriers of the identity of the pharmacy school just as much as students or faculty,” Goo said. “Alumni can serve as mentors and identify employment opportunities for fellow alumni as well as students. The chapter is designed to promote pharmacy education and our profession.”

Membership fees support the College of Pharmacy and its students, strengthen the reputation of the College of Pharmacy, and enhance the value of the UH Hilo Pharm.D. degree and ultimately the entire profession, he added.

The CoP Alumni Association steering committee includes CoP student class presidents Jessica Toyama, Victor Lin, and Marisa Kaluhiokalani, Dean’s Advisory Pharmacy Alumni - continued on page 7.
Summer Session embarks on new, hip marketing campaign

by Dori Yamada

In an attempt to spread the word about Summer Session’s recently lowered housing and tuition rates, the College of Continuing Education and Community Service (CCECS) has embarked on a marketing campaign that combines creativity, technology and social networking to supplement the standard traditional print campaign.

Working in close collaboration with CCECS Program Coordinator Dori Yamada, UH Hilo Performing Arts senior Kimo Apaka and recent film school graduate Darrell Gabonia have taken the first steps on an exciting journey that will hopefully expand the way in which UH Hilo reaches out to potential students and parents.

Beginning with a series of short promotional videos that use comedic elements to get the word out about the benefits of taking Summer Session classes, this trio (operating under the name Alchemist Films Hawaii) is working toward developing a cache of perpetual as well as topical shorts that can be used in current and future marketing campaigns.

An online video contest is also taking place that encourages folks to post their unique responses to the question, “What is the best reason to take a Summer Session class?” The contest ends on Monday, June 6, 2011 at 11:59 p.m. For contest rules and regulations, see: http://hilo.hawaii.edu/academics/ccecs/Contest.php.

Gabonia went from writing and creating productions for his family and friends as a child to attending the Academy of Art University of San Francisco and then moving to Los Angeles to produce and create a series of short films for large non-profit groups such as 826LA and Los Angeles Education Partnership. Gabonia is also co-founder of the award-winning Internet sketch comedy group Super Genius Momo where he writes and directs a weekly web series called “Dorkcore.”

Apaka grew up with a love for music—singing at church, taking voice lessons, participating in glee clubs—that followed him on his academic path here at UH Hilo. Apaka is a senior set to graduate this month with a Performing Arts degree and has expanded his love of singing to encompass many areas of the arts from acting, dancing, singing, drawing and photography. Along with Gabonia, he’s also a founding member of Super Genius Momo.

For more information about the contest and to see the promotional videos online, visit UH Hilo’s Summer Session’s webpage at http://hilo.hawaii.edu/depts/summer/.

Pharmacy Alumni

Council members Elwin Goo, Kathy Hirano, Valerie Matsu-naga, Ron Okamura, and Roy Yamauchi, and CoP Director of Community Partnerships Ron Taniguchi.

CoP Alumni Association officers-elect are: Elwin Goo, Pharm.D., president; Roy Goo, Pharm.D., vice-president; Jessica Toyama, Class of 2011 Pharm.D. candidate, secretary; and Keegan Sugimoto, Class of 2011 Pharm.D. candidate, treasurer.

Toyama said her classmates have a responsibility to their College.

“As part of the inaugural class of the first College of Pharmacy in Hawai’i and the Pacific Basin, we have embraced the importance of giving back to the community. I hope to continue our legacy of community involvement,” she said.

CoP Alumni Association membership applications are available online at: http://UHalumni.org/membership. Questions regarding membership may be directed to Roxanne Kam, associate director of membership and chapter relations, UH Foundation Office of Alumni Relations, at (808) 956-0469 or roxanne.kam@uhfoundation.org.

Disability Access Statement reminder

Faculty and staff are reminded to include the University’s Disability Access Statement in materials as planning for 2011-2012 gets underway.

The following statement is required by law and should be included in University documents:

Any student with a documented disability who would like to request for accommodations should contact the Disability Services Office at (808) 933-0816 (Voice), (808) 933-3334 (TTY), or uds@hawaii.edu, Hale Kaunoa A Wing Lounge, as early in the semester as possible.

The following statement should be included on fliers and promotional materials:

For disability accommodation, contact (name) at (phone) (V) or 933-3334 (TTY) at least 10 working days prior to event.

ADA compliance is also required of all websites and web content such as videos and audio lectures. If you maintain your own website, please contact Sunny Walker at the Web Development office at 933-3908 or swalker@hawaii.edu for more information on websites and ADA.

Please contact Susan Shirachi, director of disability services, at x30816 or shirachi@owa.hawaii.edu with any questions.
