Why is this so important?

THERE ARE MANY WAYS IN WHICH WM/PM CAN IMPROVE OUR HŌNUA
(THE COMMUNITIES IN WHICH WE LIVE):

- Service hours are accumulated to satisfy requirements for college scholarships.
- When Service Projects (SP's) are first requested, team members work to plan, organize and execute them in an orderly fashion.
- Team members are given opportunities for networking, creating lasting bonds and relationships and develop life skills to serve them all individually for the better.
- The districts wherein we provide service are beautiful destinations which afford a chance for team members to visit, learn about, develop respect and gain lifelong experiences

**Are you interested in helping
our club by supplying service
hours?**

.Contact any team member and supply the
details of your Service Project (SP).
