

## Choose from this list if you want to take a GE certified course during Fall 2015 or Spring/Summer 2016

This advising checksheet is appropriate for students following the new GE introduced in fall 2011.

### Double Dipping Policy

---

1. No course may be counted for more than one General Education Core (Basic and Area) requirement. Some course have been approved as satisfying more than one of the General Education Basic or Area Requirements. However, students completing such a course may only receive credit toward a single requirement of the student's choice..
2. A student may apply the same certified course to meet both major requirements and either a General Education Basic or Area requirement.
3. A student may apply the same certified course to meet an Integrative requirement and either a Basic or Area requirement.
4. A student may apply the same certified course to meet Writing Intensive, Hawaii-Pan Pacific, and/or Global and Community Citizenship requirements.

### The Fine Print Regarding Certified Courses

---

1. Every year new courses are added to the list of certified courses. Certification lasts for five years and can be renewed.
2. In order to count toward GE a course must be certified for the year in which it is taken. This means that if a course is taken before its certification becomes effective it will not count towards GE. Because this GE program is band-new, expiration of certification should not affect current students.
3. It does not matter which catalog year is being followed as long as it is 2011-2012 or later.
4. Students may petition for exceptions using the "Request for Modification of Academic Requirements" form.
