MS TCBES Check list
- UH Hilo Graduate application form
- Application fee, $50
- Personal statement of objectives
- Resume
- Three professional or academic letters of recommendation
- Official transcripts from all colleges or universities (must be received in a sealed envelope)
- Baccalaureate degree transcripts from international institutions must be submitted to a transcript evaluation service.
- General Test, Graduate Record Exam (must be received directly from testing agency, or in a sealed envelope if submitted with your application); UH Hilo code: 4869
- Have received confirmation of TCBES faculty sponsorship

For International applicants:
- Official TOEFL score report, if required
- International Graduate Student Supplemental Information Form

Priority deadline for receipt of all application materials in the Graduate Division: December 1

Program Purpose and Goals
The primary purpose of the MS in TCBES is to provide graduate training in conservation biology and environmental science to people with baccalaureate degrees and others currently working in the field. The program will utilize the extraordinary biological, physical and cultural complexity on the Island of Hawai‘i as a focus of investigation and study. The program will prepare students for technical positions and for entry into Ph.D. programs in related fields.

Program objectives:
- Foster knowledge of current trends and issues in conservation biology and environmental sciences including basic and applied research and natural resource problems;
- Provide participants with experiences in conceptual and technical research in ecology, evolutionary genetics, geographic analysis, environmental monitoring and assessment in marine and terrestrial environments;
- Promote research and scholarly activities that will enable participants to enter the scientific research community.

Participants of the program will:
- Perform scientific research in the interdisciplinary field of conservation biology and environmental science;
- Develop skills in natural resource and protected area management;
- Use advanced technological equipment, perform quantitative analysis and interpret complex data;
- Present scientific results in oral and written publications;
- Interpret and critique professional scientific literature.

Application Process
Applications will be examined beginning Dec. 1 for admission to the following Fall semester. After Dec. 1, applications will be accepted on a space available basis until May 1.
Apply on line at: http://hilo.hawaii.edu/admissions/Apply.php
The UH Hilo Graduate Division receives all supporting documents and maintains the applications through final notification. If you do not hear from us within 30 days of submission of your application, please contact the Graduate Division at 808-932-7926.
Applications that meet the admission criteria will be forwarded to the TCBES Admissions Committee for a comprehensive review and consideration for admission into the program. Admission decisions made by the committee will be forwarded to the Graduate Division which sends the final notification to the applicant.

Admission Status: The applicant’s admission status is valid only for the semester to which the applicant is accepted. Applications for students who do not register or who withdraw from the University are voided but retained for a period of one (1) year. Students may reapply for admission to the next year by submitting a new application to the Admissions Office with the application fee.

Criteria for Admission:*
Acceptance is granted at the discretion of the Admissions Committee based on the six criteria listed below. An applicant must:

1) have earned a baccalaureate degree from an accredited institution or from a nationally recognized foreign institution.
2) in her/his personal statement, list advisor(s) from the TCBES faculty who agrees to sponsor the application and to serve as primary advisor upon acceptance to the program.
3) have a minimum combined verbal and quantitative score of 1000 on the General Graduate Record Exam (GRE).
4) have a grade point average of 3.0 (4.0 = A scale) or the equivalent in the last four semesters of approximately 60 semester credits of undergraduate and/or in all post-baccalaureate work.
5) submit three letters of recommendation from references who have observed or supervised the applicant’s performance and are able to comment on the quality of the applicant’s academic achievement, ability to pursue graduate study, and general character.
6) earn a score of 550 TOEFL (paper based), 213 (computer based) or 79 (internet based), or 6.0 IELTS (for students who have not attended an English language university, or for whom English is not the primary language).

*Recommended course work prior to admission: 2 years chemistry; 1 year calculus; 1 course in geographic information or remote sensing, 1 course in statistics; 2 courses in life sciences; 2 additional courses in physical sciences.

Transfer of Credits: Requests for transfer of graduate credits must be made during the first semester in which the student is enrolled in the program. Only credit hours with a grade of B or better from accredited universities are transferable. Transfer credit hours must have been completed within five years preceding the date upon which the advanced degree is to be conferred by UH Hilo, and must not have been used to satisfy requirements for another degree. The TCBES program will decide which credits will be transferred.
1. Do I need to find a faculty sponsor?
Yes, you are required to contact individual faculty members whose research interests are similar to your own and who agree to sponsor your application to the program. It is recommended that you begin faculty contact well before the application deadline. Faculty sponsorship is required for program acceptance.

2. How do I find a faculty sponsor?
TCBES faculty information can be found within this application and on the TCBES Program website.

3. How long does it take to complete the program?
The course work is designed to be completed in 3-4 semesters, with additional time needed for completing the thesis or internship.

4. What are the entrance requirements?
See Check List and Criteria for Admission on the first page of this form.

5. Do I have to take the GRE?
Yes, applicants are required to submit General GRE exam scores to UH-Hilo (UH Hilo code: 4869).

6. Can I transfer credits?
Yes, up to 6 credits, subject to program approval.

7. When will the program start?
Classes for new students begin in the fall of each year.

8. How much will it cost to live in Hilo?
You should budget approximately $25,000 per year (residents of Hawai‘i) and $30,000 (non-residents) for tuition, books, housing, food, and personal expenses.

9. Is financial aid available?
Graduate assistantship positions may be available (contact Dr. Ostertag: ostertag@hawaii.edu). You may also contact faculty and participating agencies for financial assistance. Students interested in assistantship positions must have submitted the FAFSA; students who meet the deadline for financial aid will have priority for assistantship positions and other aid. Contact the UH-Hilo Financial Aid Office for more information (808-932-7449).

10. Do I need a computer?
Yes, or at least daily access to one.

11. Do I need to write a thesis?
Plan A requires course work and a thesis of original research. Plan B requires course work, an internship, and research papers.

Course  Cr  Title
Core Courses (required for all MS TCBES students):
600 3  Conservation Biology and Environmental Science
601 3  TCBES Field and Laboratory Methods
602 1  Research Seminar in TCBES
603 1  Natural Resource Management Seminar

Elective Courses:
Plan A: 16 elective credits of 600-level TCBES courses.
Plan B: 25 elective credits of 600-level TCBES courses.

Elective Courses:
610 3  Environmental Chemical Analysis
615 3  Global Environmental Change
620 3  Research Techniques in Molecular Conservation Biology
630 3  Nearshore Monitoring and Analysis
633 3  Biodiversity
635 3  Physical Environment of Ecosystems
640 3  Advanced Remote Sensing and Digital Image Processing
645 3  Applying Social Science to Marine and Coastal Resource Management
650 3  Oceanographic Monitoring and Analysis
655 3  Ecological Physiology
660 3  Molecular Ecology
665 3  Environmental Toxicology
670 3  Advanced Techniques in Geographic Information Systems
675 3  Conservation Genetics
677 3  Quantitative Ecology
680 3  Advanced Statistical Analysis and Research Design
685 3  Behavioral Ecology and Evolutionary Analysis
694 1-3  Special Topics in Tropical Conservation Biology and Environmental Sciences
699 1-3  Directed Research

Thesis and Internship Courses:
690 3  Internship (Plan B: 3 credits required)
700 1-6  Thesis Research (Plan A: 6 credits required)
TCBES Faculty

Jason E. Adolf  jadolf@hawaii.edu
Associate Professor & Chair, Marine Science
Ph.D., University of Maryland College Park.
Coastal phytoplankton ecology, real-time continuous monitoring.
http://www.mare.hawaii.edu/faculty.html

Norman Arancon  normanq@hawaii.edu
Associate Professor, CAFNRM
Ph.D., The Ohio State University.
Vermicomposting, composting, soil ecology, organic agriculture, tropical fruit crop production, sustainable agriculture.
http://hilo.hawaii.edu/academics/cafnrm/NormanArancon.php

Jonathan D. Awaya  awayaj@hawaii.edu
Associate Professor, Biology
Ph.D., University of Hawai‘i at Mānoa, Molecular Biosciences and Bioengineering.
Molecular microbiology, bioremediation, iron-trafficking pathways, secondary metabolite production.
http://hilo.hawaii.edu/depts/biology/Awaya.php

Jim Beets  beets@hawaii.edu
Professor, Marine Science
Ph.D., University of Georgia, Zoology.
Marine ecology, fish/fisheries ecology, ecological monitoring
http://www.uhh.hawaii.edu/~beets/

Kathryn Besio  besio@hawaii.edu
Professor, Geography
Ph.D., University of Hawai‘i at Mānoa, Geography.
Cultural geography, tourism, nature-society relations.
http://www.uhh.hawaii.edu/depts/geography/faculty.php

Leng Chee Chang  lengchee@hawaii.edu
Associate Professor, Pharmaceutical Sciences
Ph.D., University of Illinois at Chicago, Natural Products Chemistry.
Isolation, characterization, and biological evaluation of natural products of marine and microbial origin.
http://pharmacy.uhh.hawaii.edu/cop/psc/lengchee.php

Steven Colbert  colberts@hawaii.edu
Associate Professor, Marine Science
Ph.D., Geological Sciences, University of Southern California.
Coastal hydrology, carbonate chemistry.
http://www2.hawaii.edu/~colberts

Marta deMaintenon  demaine@hawaii.edu
Professor, Marine Science
Ph.D., UC Berkeley, Integrative Biology.
Phylogeny, biogeography and evolution of gastropod molluscs.
http://www.mare.hawaii.edu/faculty.html

Jesse Eiben  eiben@hawaii.edu
Assistant Professor, CAFNRM
Ph.D., University of Hawai‘i at Mānoa, Plant and Environmental Protection Sciences, Entomology.
Insect taxonomy, insect phylogenetics, population and growth modeling, integrated pest management, survivorship analysis, biodiversity statistics.
http://hilo.hawaii.edu/academics/cafnrm/JesseEiben.php

Armando García-Ortega  agarciaco@hawaii.edu
Assistant Professor, CAFNRM
Ph.D., Wageningen University, The Netherlands
Aquaculture of local marine fish species.
http://hilo.hawaii.edu/academics/cafnrm/ArmandoGarcia-Ortega.php

Joseph Genz  genz@hawaii.edu
Assistant Professor
PhD Anthropology, University of Hawaii at Manoa
Cultural revitalization of voyaging and navigation
https://hilo.hawaii.edu/faculty/JoeGenz/

Mazen Hamad  mazen@hawaii.edu
Associate Professor, Chemistry
Ph.D., University of Washington, Analytical Chemistry.
Environmental Analytical Chemistry.
http://hilo.hawaii.edu/depts/chemistry/FacultyandStaff.php

Patrick Hart  (pjhart@hawaii.edu)
Professor & Chair, Biology
Ph.D., University of Hawai‘i at Mānoa, Zoology & Ecology, Evolution, and Conservation Biology.
Ecology and conservation-Hawaiian forests/forest birds.
http://hilo.hawaii.edu/faculty/pjhart/

Maria Haws  haws@aol.com
Associate Professor, CAFNRM
Director Pacific Aquaculture & Coastal Resources Center Extension Specialist, University of Hawai‘i Sea Grant Program.
Ph.D., Texas A&M Univ., Wildlife & Fisheries Sciences.
Pearl research, aquaculture, marine invertebrates, coastal zone management, natural resources policy.
https://hilo.hawaii.edu/academics/cafnrm/faculty.php

Kevin Hopkins  hopkins@hawaii.edu
Professor, CAFNRM
Ph.D., Auburn University, Fisheries & Allied Aquacultures.
Aquaculture and fisheries development including their environmental impacts.
https://hilo.hawaii.edu/academics/cafnrm/faculty/hopkins.php

Susan Jarvi  jarvi@hawaii.edu
Professor, Pharmaceutical Sciences
Ph.D., Northern Illinois University, Biological Sciences.
Host-parasite co-evolution, avian disease systems.
http://pharmacy.uhh.hawaii.edu/cop/psc/jarvi.php
Marina Karides mkarides@hawaii.edu
Associate Professor, Sociology
Ph.D., University of Georgia, Sociology.
Island studies, economic development, and food systems, global and feminist sociology, qualitative research methodologies. https://hilo.hawaii.edu/depts/sociology/faculty.php

Matthew L. Knope knope@hawaii.edu
Assistant Professor, Biology
Ph.D., Stanford University, Biology.

Yiqing Li yiqing@hawaii.edu
Associate Professor, CAFNRM
Ph.D., University of Puerto Rico.
Forest soil ecology, carbon sequestration of tropical forests, tropical silviculture and forest ecosystem restoration. https://hilo.hawaii.edu/academics/cafnr/faculty/YiqingLi.php

Chris Lu, chrislu@hawaii.edu
Professor, CAFNRM
Ph.D., University of Wisconsin-Madison

Steven Lundblad slundbla@hawaii.edu
Associate Professor, Geology
Ph.D., Geological Sciences, University of North Carolina.

Bruce Mathews bmathews@hawaii.edu
Professor & Interim Dean, CAFNRM
Ph.D., University of Florida, Agronomy and Soils.

Sarah Marusek marusek@hawaii.edu
Associate Professor & Chair, Political Science
Ph.D., University of Massachusetts Amherst, Political Science
Legal geography; legal semiotics; everyday jurisprudence; law and society http://works.bepress.com/sarah_marusek/

William J. Mautz mautz@hawaii.edu
Professor Biology
Ph.D., Cornell University, Ecology and Evolutionary Biology

Karla McDermid mcdermid@hawaii.edu
Professor, Marine Science
Ph.D., University of Hawai‘i at Mānoa, Botanical Sciences.
Seaweed/seagrass taxonomy, ecology, biogeography, chemistry; and herbivory. http://www.mare.hawaii.edu

Jon-Pierre Michaud jonpierr@hawaii.edu
Associate Professor, Chemistry
Ph.D., University of Arizona, Toxicology & Pharmacology.
Toxicology, environmental chemistry, pesticides in water and biota, epidemiology of volcanic fog (vog). http://hilo.hawaii.edu/depts/chemistry/FacultyandStaff.php

Jene Michaud jene@hawaii.edu
Professor, Geology
Ph.D., University of Arizona, Hydrology.
Hydrology, watersheds, geomorphology, modeling. http://www2.hawaii.edu/~jene/

Peter Mills millsp@hawaii.edu
Director, Heritage Management Graduate Program, Professor of Anthropology
Ph.D., University of California, Berkeley.

Cam Muir cmuir@hawaii.edu
Associate Professor, Biology
Ph.D., Simon Fraser University, Institute for Molecular Biology & Biochemistry.
Ecological genetics/conservation genetics, phylogeography, and local adaptation of endemic Hawaiian fauna. http://hilo.hawaii.edu/faculty/cmuir/

Stan T. Nakanishi stn@hawaii.edu
Assistant Professor, Biology
Ph.D., Emory University, Neuroscience.
Neuromodulation, lā‘au lapa‘au (medicinal Hawaiian plants). http://hilo.hawaii.edu/directory/view/1764

Rebecca Ostertag ostertag@hawaii.edu
Director, TCBES Graduate Program, Professor, Biology
Ph.D., University of Florida, Botany.
Plant community dynamics, nutrient cycling, restoration of tropical forest ecosystems. http://hilo.hawaii.edu/uhb/faculty/ostertag/

Adam Pack pack@hawaii.edu
Associate Professor, Psychology and Biology
Ph.D., University of Hawa‘i at Mānoa, Human and Animal Cognition: Marine Mammal Science.

Jonathan Price jprice@hawaii.edu
Associate Professor & Chair, Geography & Environmental Science
Ph.D., University of California at Davis, Geography.
Michael Shintaku  shintaku@hawaii.edu  
Professor, CAFNRM  
Ph.D., Cornell University, Plant Pathology.  
Plant virology.  
https://hilo.hawaii.edu/academics/cafnr/faculty/shintaku.php

Shihwu Sung, sung45@hawaii.edu  
Professor, CAFNRM  
Ph.D., Iowa State University, Environmental Engineering.  
Applied Environmental Engineering.  
https://hilo.hawaii.edu/academics/cafnr/faculty.php

Jolene Sutton, itsutton@hawaii.edu  
Assistant Professor, Biology  
Ph.D., University of Otago, Zoology.  
Molecular ecology, population and conservation genetics, genetic engineering, genetic pest management.  
https://sites.google.com/site/jolenesutton/

Misaki Takabayashi misakita@hawaii.edu  
Professor, Marine Science  
Ph.D., University of Queensland, Centre for Marine Studies.  
Coral reef ecology, coral molecular biology, marine microbial molecular biology.  
http://maunaloa.uhh.hawaii.edu/~misaki/Welcome.html

Li Tao ltao2@hawaii.edu  
Assistant Professor, Biology  
Ph.D., University of California at Davis, Biochemistry and Molecular Biology.  
Regulation of cell division using a combination of biochemistry, molecular biology and cell biology.  
http://hilo.hawaii.edu/uhh/faculty/ltao/

Jason Turner jpturner@hawaii.edu  
Associate Professor, Marine Science  
Ph.D., Texas A&M University, Wildlife and Fisheries.  
Marine ecology, trophic dynamics of food webs, biochemical tracers.  
http://foodweb.uh.hawaii.edu

Tracy Wiegner wiegner@hawaii.edu  
Professor, Marine Science  
Ph.D., Rutgers University, Oceanography.  
Freshwater and coastal water quality, nutrient and organic matter cycling, microbial processes.
