NURS 480 - Nursing Remediation Theory - University of Hawaii at Hilo

This course prepares the registered nurse who has been out of nursing for 5 or more years to return to practice. This course also meets the requirement as a remediation course for any applicant who has not passed their NCLEX 3 times within the past 3 years. Students enrolling in this course must have graduated from an accredited school of nursing in good standing, have attempted the NCLEX examination within the past 3 years and must be eligible to sit for the NCLEX exam upon completion of the course. PRE: Instructor's Consent.
4.000 Credit hours
60.000 Lecture hours

NURS 481L - RN Refresher Lab - University of Hawaii at Hilo

This laboratory course is designed to prepare the registered nurse who has been out of nursing for 5 or more years to return to practice. The main areas of instruction will include: general medical and surgical nursing, and mental health nursing. Additionally, new equipment, procedures, charting, documentation, medication, IV therapy, and physician's orders will be reviewed. The course content is derived from the Hawaii Nursing Scope of Practice and the Hawaii Nursing Practice Act. The lab participation is on site at the University of Hawaii at Hilo. Students enrolling in this course must have completed initial licensure in United States, must be eligible for licensure in Hawaii upon completion of program and must have been previously licensed as a RN. Pre: Instructor's Consent.
2.000 Credit hours
90.000 Lab hours
Lab fee: $200
