

## eWaste Recycling Program

ANNOUNCEMENT (2/16/10)

“Apple is offering an opportunity to the University of Hawaii for the establishment of a long-term free-of-charge quarterly recycling program of UH electronic ewaste. This program would require a process where all equipment is collected via a work order system through each campus’ Facilities group of Grounds department and stored in a secure location until pick up. Equipment acceptable for the program would be the same type as in previous UH collections. The equipment list is included at the end of this document. This program is ONLY for UH ewaste, NOT for business, government, or general public equipment.”

Communications from Larry N. Wiss, Communications Officer

University of Hawaii

Information Technology Services

2532 Correa Road, Bldg. 37

Honolulu, HI 968722

Kolin Kettleon states that “UHH has had an eWaste Program in effect for many years, but there has never been an established schedule. But now Apple is committing to picking up eWaste on a quarterly basis.” Kolin is awaiting more information, but UHH staff can input a work order through the Auxiliary Services webpage to have eWaste picked up. Please refer to the list of equipment and components below and the link to the Auxiliary Services work order request form online is:
