

Maunakea Management Board Late Written Testimony

November 10, 2020

From: **Doug Arnott Hilo** <arnottd@gmail.com>

After some research of the tuesday agenda I discovered this document.....

<http://www.malamamaunakea.org/uploads/MKMB%20Maunakea%20Shuttle%20Proposal%2011-1-2020.pdf>

And there it was chapter and verse.

My only initial comment is that keeping this fleet of shuttle vehicles at either the Sheep Ranch or HP will double the cost of the operation.....just fuel logistics will add thousands to the cost.

If OMKM just backs off and leaves it alone Social Media will inform the public of the so called Softgate and they will learn to go to current commercial Operators.

If a pickup at PuuHuluhulu is required to go only to VIS that will become obvious without Govt Intervention and any one of the operators can provide that service.

Pre Covid many of our west side guests were driving to PHH or to VIS lower parking to join our summit van.

If all Operators got together to provide a Security guard at PHH that is an ideal staging area and leaves out the additional complexity of the Sheep Ranch.
