

MAUNAKEA SPEAKER SERIES

A Monthly Scholar-Focused Presentation

in Partnership with Office of Maunakea Management,
'Imiloa Astronomy Center and UH Hilo Dept. of Physics & Astronomy

TACKLING TOMORROW'S ISSUES: HILO HIGH SCHOOL STUDENT SCIENCE

THURSDAY, JANUARY 10 • 7pm to 8pm
'Imiloa Astronomy Center

Local high school students will share their insights from science fair projects, internships, and research. Please join us in supporting and learning from the next generation of Hawai'i scholars as they share their enthusiasm and knowledge on topics ranging from public health research to a myriad of environmental issues.

Be sure to attend the screening of the award-winning documentary "Inventing Tomorrow" happening Jan. 4 through 8 at the Palace Theater in Hilo. "Inventing Tomorrow" follows six young scientists from Indonesia, Hawai'i, India and Mexico as they tackle some of the most complex environmental issues facing humanity today. Each student is preparing original scientific research that he or she will defend at ISEF, the Intel International Science and Engineering Fair.

MAUNAKEA SPEAKER SERIES IS FREE AND OPEN TO THE PUBLIC.
Parking at 'Imiloa is open and available without charge
