Re: Sabbatical Leave Report  

Aloha,

As you know, I was on sabbatical leave for the period of 1 February – 31 July 2013. During that time I finished my second Master’s degree, a Master of Education in Educational Technology. This degree is applicable to two different areas of the work I perform at Mookini Library: distance learning and instruction.

In addition to my last elective class, the final semester of this program involved:

- a culminating project (which was begun in the penultimate semester)
- a presentation at the annual Technology, Colleges and Community Online Conference (http://www.tcconlineconference.org/about)
- finalizing the ePortfolio of accomplishments which is maintained throughout the program (http://amysetecexperience.weebly.com).

My culminating research project was the creation and testing of an online instructional module designed to introduce the concept of media literacy to undergraduate students. Attached is the paper I wrote detailing the project. I have presented these findings to my colleagues and hope to modify and offer the module to faculty and students of the University of Hawai‘i at Hilo and Hawai‘i Community College.

Please do not hesitate to let me know if you have any questions or require additional information regarding my sabbatical activities.

Aloha,

Amy Saxton
