Basic Level Class
This is a PADI class and the class is four days long; we have many options to pick from. You must bring your own Mask, Fins and Snorkel. Please check out webpage or come in for recommendations for these items.

PADI Class One -- September 6th, 7th, and 20th, 21st
PADI Class Two — September 13th, 14th, and 20th, 21st
PADI Class Three—October 4th, 5th and 18th, 19th
PADI Class Four- October 11th, 12th and 18th, 19th
PADI Class Five- November 1st, 2nd, and 8th, 9th

Advanced Class
This class is for certified divers that would like some more diving experience in order to increase their skills and learn some new tricks of the trade.

PADI October 4th and 5th
PADI November 1st, 2nd

Rescue Diver
This class teaches you about how to prevent problems and how to help if there is one.
PADI- November 15th, 16th

Enriched Air/Nitrox Diver
This class teaches you how to analyze oxygen enriched air mixes and how to safely dive on these mixes. The benefit of this is decreased surface intervals, longer bottom times and less nitrogen building up in the body.
Must be Open Water Diver Certified for the class. **This class is done upon request!**

Divers Alert Network and the PADI Oxygen Provider class
These are held on the same day, this class is a must if you are doing lots of diving or planning on working in the diving industry. Please come in and talk to us about the next class.

Divemaster
This is the first professional level of diving. It is an intensive program including an internship and lots of book work.
Upon certification you will be certified to help instructors in classes and lead groups of certified divers. **This class is ongoing; please come in for a consolation to find out if this is the right class for you! To start this class you need to have 40 logged dives, be a Rescue diver, and have proof of current First Aid/CPR/Oxygen Certifications. These are ongoing classes throughout the year.**
