If you have contacts at other agencies that may be appropriate for your Psychology practicum, please provide their name, phone number, and email address.

*I understand that my enrollment in PSY 445 is contingent upon 1) the identification of a placement site that is appropriate for a Psychology undergraduate, 2) the identification of a senior staff member at the placement site who is willing to serve as my placement supervisor, 3) my willingness to work at the placement site, 4) the Instructor's determination that the placement arrangement is acceptable, 5) the successful completion of required site entry requirements (e.g. background check, TB test, health clearance, etc.), and 6) a seat being available in the course.*

*I give Dr. Cheryl Ramos permission to share this completed questionnaire with the practicum site supervisor.*
