Chair's Report:
Common Course Numbering

Faculty Lounge→ Various suggestions were made for a location. Jim will check on PB9’s availability.

Faculty Development Fund→ Jim indicated that the Chancellor is going to provide funds for faculty development separate from the “Professional Development” fund.

Spring Faculty Forum→ Jim Beets asked for input to the ad hoc committee in charge of the event: Jan Ray, Michael Shintaku, and Jim Beets. The topic should be related to research and scholarship development for faculty. Todd Belt indicated that surveys from the September Faculty Forum indicated a preference for a “workshop” approach over a “presentation” approach.

Chair’s School ad hoc committee→ Jim Beets asked for volunteers for this committee. Jan Ray volunteered. Others were nominated, and Jim will contact them.

FC Response to “No Action” on motions→ Jim indicated that a mechanism is not in place to define this procedure, and that it will be defined in the Congress manual currently under construction. A suggestion was made to list such “non-actions” on the Congress website, if only to provide documentation to justify possible discussion of “no confidence” votes.

Graduate Council Liaison→ Adam Pack has agreed to be the GCL.
Jim Beets asked members to provide input for the budget Congress needs to present for AY2012-2013. Jan Ray asked to see prior budgets as a point of reference. Jim explained that he would like to uncover different versions of prior Congress budgets. He explained that the upcoming Congress manual would define this procedure.

**Appendix A: Admissions Report**

**SSA/EMIT Report_December 2012**
Upon request from Congress, the problem of students failing prerequisite courses and remaining enrolled in sequential courses was an agenda item at EMIT’s last meeting. Other Colleges, for example Leeward Community College have policies in place to address this issue. There are processes to identify these students, and it is possible to resolve this problem (Modified Leeward Model). Unfortunately, UH Hilo has a very high rate of late grade submissions, which would interfere with the process. The majority of faculty is compliant, but a few are not. The SSA Committee agreed to propose the Modified Leeward Model to Faculty Congress, with the students being notified by e-mail and sent to speak with their advisor. The SSA Committee agreed that faculty should be advised of the consequences of late grade submission and the reasons for ‘repeat offending’ should be sought.
Following Congress’ review of the Model, a plan to bring forth a motion: 1) to adopt the Modified Leeward Model with a deadline to be determined from the end of grade submissions to the commencement of the next semester; 2) to e-mail all faculty explaining the resolution and encouraging them to submit grades on time; 3) late grade submissions by faculty will be addressed by the respective Dean.

**Plan for next semester:**
Discuss English language requirements for foreign students. Previously a TOEFL score of 500 was required, or students were referred to the English Language Institute. There are currently no TOEFL requirements but it was agreed that this should be reinstated if the ELI approves. A required score of 550 was proposed.
Discussion of English courses on campus, with the plan to further investigate 2-tiered English courses and to ‘aim higher’ in terms of our expectations of student writing competence.
Review Faculty Expectations of Students Document and previous recommendations from 2010 Admissions Committee.

**Leeward Community College**

**Modified Policy on Administrative Disenrollment for Failed Prerequisites**

**Policy Objectives:** the purpose of this policy is to ensure that Leeward CC students are adequately prepared to succeed by having completed all appropriate prerequisites to a satisfactory level.

**Procedures:**
The Leeward CC Registrar’s Office will perform an administrative disenrollment of any student who has failed a course for which he or she had a prerequisite clearance and which is a prerequisite for a course for which the student is preregistered in a subsequent semester.
This should be performed for any student whose home campus is Leeward CC.
The administrative disenrollment will be performed as soon as practicable after grades are rolled in any given term, once a report of failed prerequisites is available.
Students will be notified of their disenrollment via UH e-mail accounts and advised to see their advisors for options to reschedule courses impacted by the disenrollment.
Advisors will be provided with a list of students who have failed such prerequisite courses, and a copy of the list pertinent to each Instructional Division will be shared with the respective Division Chair.
