The Faculty Congress General Education Committee is currently working on the following:

1. Finalizing the fall, 2015 list of GE certified courses.
2. Planning the process and timeline for the re-certification of 196 General Education courses originally certified for 2011-2016. This process will continue throughout the academic year.
3. Creating and piloting a student survey assessment for GCC certified courses.
4. Attempting to increase the clarity of the certification criteria for the GCC and World Cultures areas of the GE application instructions. These two areas account for the majority of the GE Committee’s requests for additional information during the certification process.
5. Working toward the resolution of some of the difficult implementation issues raised in ongoing discussions with the Registrar’s Office.

When certain of these issues have been resolved, the GE Committee will set a February, 2015 deadline for new GE applications to be certified for fall, 2016.

Respectfully submitted,

Dr. Michael Bitter  
Chair, UHH Faculty Congress General Education Committee
