On Friday September 16, 2016, the Social Sciences Division faculty approved amending the division's DPC Procedures by adding this clause:

An individual candidate may exclude participation in the DPC by up to two Division members if the candidate believes that a conflict exists that would prevent the faculty member's fair evaluation of a tenure or promotion application, or application for contract renewal, made by the candidate. This may be done by the candidate in an email to the Vice Chancellor for Academic Affairs and the Division Chair within 10 days of the DPC elections. Substitutions for the excluded members will be made from a list of alternates based on the ranking in the DPC election. Vote: 21 in favor and 15 against (13 eligible faculty did not vote)
