ACADEMIC SURVIVAL SKILLS AND MAKING THE GRADE
What makes the grade so important?

- Get a job
- Compete successfully
- Develop skills
- Build confidence
What is the formula for academic success?

- Practice self-discipline
- Use good study techniques
- Resist distractions
- Maintain good health
Self-discipline

- Keep a positive attitude
- Set goals
- Know yourself
- Work to reach goals
- Learn to avoid distractions
Good Study Skills

- Managing your time
- Choosing a study place
Study Tips

- Plan your reading strategy
- Use the library effectively
- Prepare for tests successfully
How to Prepare for Exams?

- Ask the instructor
- Look up copies
- Try to predict
- Review your notes
- Get a good night’s sleep
- Eat lightly
Your Social Life

- Alcohol and studying do not mix well
- Consider the academic and legal risks of drug use
- Too much socializing means less time for studying, lower grades and increased stress
Extracurricular Activities

- Develop leadership and organizational skills
- Clubs, fraternities, professional societies, sport programs, and religious groups
- Avoid interference with needed study time
Good Health

- Eat well
- Get enough sleep
- Exercise regularly
- Plan time for recreation
Understanding Stress

- Stress can make concentration difficult
- Career decisions
- Grades
- Personal problems
- Finances
Keys To The Success

- Practice self-discipline
- Sharpen your study skills
- Learn to deal effectively with the college environment

SUCCESS DEPENDS ON SKILL NOT LUCK!
