Notes:

BIOL 101 and 101L are non-major courses and do not count toward the major or minor in Biology.

Students should begin Chemistry courses their freshman year if they plan to complete their academic program in four years. Chemistry courses are often prerequisites for required Biology classes.

Students must earn a minimum grade of "C-" in all required and prerequisite courses.

Students must earn at least a 2.0 GPA in courses required for the major.

*Biology 175 and 176 are offered every semester, and can be taken in either order. Also for BIOL 175 and BIOL 176, the lab section must be taken concurrently with the lecture.
