1. No course may be counted for more than one General Education CORE requirement. Students are cautioned that, in a few instances, a single course has been certified for more than one of the General Education Basic or Area Requirements. However, students completing such a course may only receive credit toward a single such requirement. They will be offered their choice of which requirement is satisfied and will be expected to fulfill the other requirement(s) with other courses.
2. Courses which meet both major requirements and General Education Core or Integrative requirements may be simultaneously counted for both.
3. Courses which are certified for a General Education Core requirement and an Integrative requirement may be counted for both.

This program sheet was prepared to provide information and does not constitute a contract. See your specific year course catalog requirements. Meet regularly with your major advisor or the Advising Center if you do not have an advisor.
